KEY WORDS

Biostatistics Machine learning Mechanistic models Optimal control Infectious diseases Immunology
Virology Dimension reduction Variable selection Longitudinal data Random forests Survival analysis
Parameter estimation Ordinary differential equations Piecewise deterministic Markov processes Vaccine
Ebola HIV SARS-CoV-2 Allogeneic hematopoietic cell transplantation Gender medicine

EDUCATION AND EXPERIENCE

Postdoctoral Researcher

Institute of Medical Virology, University of Zurich / Division of Infectious Diseases and Hospital Epidemiology, University Hospital Zurich

📅 jul 2023 – present 📍 Zurich, CH

Alexandra Trkola & Roger Kouyos groups.

- Determinants of HIV-1 broadly neutralizing antibody induction
- Socio-economic and demographic determinants of medication prescription in the Swiss HIV Cohort Study

Early-Career Fellow

Collegium Helveticum, Joint Institute for Advanced Studies of the ETH Zurich, the University of Zurich, and the Zurich University of the Arts

📅 sep 2022 – jun 2023 📍 Zurich, CH

- Effect of sex hormone intake on the immune system in cis and trans women with HIV
- The Gendered Immune System: The Missing Component in Mental Health Research

Postdoctoral Researcher

Institute of Medical Virology, University of Zurich / Division of Infectious Diseases and Hospital Epidemiology, University Hospital Zurich

📅 oct 2020 – aug 2022 📍 Zurich, CH

Alexandra Trkola & Roger Kouyos groups.

- Determinants of HIV-1 broadly neutralizing antibody induction
- SARS-CoV-2 seroprofiling in adults and children
- Antibody response to SARS-CoV-2 vaccination in patients following allogeneic hemetopoietic cell transplantation

Postdoctoral Research Scientist

Columbia University Medical Center – Department of Pathology and Cell Biology

📅 jan 2019 – oct 2020 📍 New York, NY, USA

Andrew Yates group.

- Predicting the clinical state of patients following allogeneic hematopoietic cell transplantation based on immune cell subsets
- Vitamin D deficiency signatures after allogeneic hematopoietic cell transplantation

PhD in Public Health, biostatistics (defense: October 30th, 2018)

Modeling and optimizing the response to vaccine and immunotherapeutic interventions. Application to Ebola virus and HIV.

Université de Bordeaux / INSERM Bordeaux Population Health Research Center / INRIA Bordeaux

📅 2015 – 2018 📍 Bordeaux, FR

Rodolphe Thiébaud & François Dufour groups.

- Modeling the humoral immune response to Ebola vaccine. European projects EBOVAC1/2. Collaboration with Janssen (Johnson&Johnson group)
- Optimizing IL-7 therapies in people with HIV. Collaboration with the Vaccine Research Institute
- *In silico* trials to predict the response to short-cycle strategies for HIV antiretroviral therapies
- Modeling the viral rebound kinetics following therapeutic vaccination in SIV/SHIV-infected non human primates. Collaboration with Harvard Program for Evolutionary Dynamics

Predoctoral research

Fred Hutchinson Cancer Research Center - Vaccine and Infectious Disease Division

📅 oct 2014 - may 2015

📍 Seattle, WA, USA

Peter Gilbert group, supervisor: Z. Moodie. Effect of rainfall season on the efficacy of a dengue vaccine in Asia and Latin America. Collaboration with Sanofi Pasteur.

Master of Science: Applied Mathematics - Statistic modeling in Biology.

Université Paris Descartes

📅 2013 - 2014

📍 Paris, FR - Bordeaux, FR

Internship: INSERM. Rodolphe Thiébaud & Daniel Commenges groups. Modeling the dynamics of CD4 T lymphocytes after HIV vaccine injection. Application to HVTN 068 clinical trial.

Master's degree: Applied Mathematics

ENS Cachan / Université Paris Diderot

📅 2012 - 2013

📍 Paris, FR - Canberra, AUS

Internship: NICTA (now CSIRO), Canberra, Australia. Bob Williamson group.

Bachelor's degree: Mathematics

ENS Cachan / Université Paris Diderot

📅 2011 - 2012

📍 Cachan, FR

Internship: CMLA, Cachan. Nicolas Vayatis group.

Entry at Ecole Normale Supérieure de Cachan - now Ecole Normale Supérieure Paris Saclay (2011)

FUNDINGS

- University of Zurich postdoc fellowship (approx. CHF 115,000): Toward personalized vaccinology for allogeneic hematopoietic cell transplant recipients (2024).
- Swiss HIV Cohort Study funding (approx. CHF 26,000): Socio-economic and demographic determinants of medication prescription in the Swiss HIV Cohort Study (2023).
- Collegium Helveticum fellowship (approx. CHF 85,000): The Gendered Immune System: The Missing Component in Mental Health Research (Sep 2022 - Jun 2023)
- UZH GRC Short grant (approx. CHF 4,000): organization of the workshop "Sex and gender in immunity" at the Collegium Helveticum, Zurich (May 5-6, 2022)
- Swiss HIV Cohort Study funding (approx. CHF 44,000): Women and HIV: a spotlight on the role of oestrogens and progestogens on the immune system (2021).
- Philippe Foundation grant (support for research activities between France and the US, 2019-2020): \$9,000

HONORS AND AWARDS

- Pfizer Research Prize in the field Infectious Diseases, Rheumatology, and Immunology (2023) for the clinical research paper *Multifactorial seroprofiling dissects the contribution of pre-existing human coronaviruses responses to SARS-CoV-2 immunity*
- Second prize of the Swiss Society for Infectious Diseases in the category "clinical research in infectious diseases" for the paper *Multifactorial seroprofiling dissects the contribution of pre-existing human coronaviruses responses to SARS-CoV-2 immunity*

MENTORING AND TEACHING ACTIVITIES

- Marco Labarile, UZH (Master student, now PhD student). Two co-last author papers.
- Nadia Neuner-Jehle, UZH (Master student). Obtention of an SHCS funding (CHF 19,000: Using Viral Diversity to Identify HIV Variants Under HLA-Dependent Selection in a Viral Genome-Wide Screen). One co-last author paper under review.
- Marius Zeeb, UZH (PhD student). One second-author paper under review.
- Lise Gross, U. Bordeaux (Master student). One paper.
- Teaching in the block course *Quantitative Life Sciences: from Infectious Diseases to Ecosystems*, University of Zurich (2020, 2021).
- Total of 128h of teaching at ISPED (Institut de Santé Publique, d'Épidémiologie et de Développement) in the following courses: linear mixed models (MSC: epidemiology), linear regression & statistical tests (Master: Public Health), statistical modeling (Public Health residents). Softwares R and SAS.

INSTITUTIONAL RESPONSIBILITIES

- Elected at the Equal Opportunities Commission of University of Zurich (sep 2021 - jun 2022).
- Active member in the Columbia postdoctoral workers union (sep 2019 - sep 2020).
- PhD students' representative at the INSERM U1219 center committee (2018).
- PhD students' representative at the doctoral college of the University of Bordeaux (2017-2018).
- PhD students' representative at the doctoral school committee (2015-2016).
- Treasurer of the PhD student's association of the doctoral school (2015-2016).

MEMBERSHIPS AND SCIENTIFIC REVIEWING

- Member of the Swiss HIV Cohort Study Young Researchers' Group (since 2022)
- Member of WAVE group (Women Against Viruses in Europe) and EACS (European AIDS Clinical Society) (since 2021)
- Member of AAI (American Association of Immunologists), attendance to AAI Advanced Course in Immunology (2019)
- Member of 500 Women Scientists (since 2019)
- Member of SFdS (French Society of Statistics) and SMAI (Société de Mathématiques Appliquées et Industrielles) (2016-2018)
- Reviews: 3Rs French center fundings (2024), Plos Computational Biology (since 2020), Plos Pathogens (2021), and Nature Computational Science (2021)

WORKSHOP ORGANISATION

- "Integrating diverse forms of knowledge in health care research" at the Collegium Helveticum, Zurich, June 2023
- "Sex and gender in immunity" at the Collegium Helveticum, Zurich, May 2022
- "Communicating effectively online" with the Columbia University Postdoctoral Society (may 2020)

OUTREACH ACTIVITIES

- Scientific input for an article in El País by a scientific journalist (¿Por qué hablamos del 70% de población vacunada como 'cifra mágica' para acabar con la covid?, April 14th 2021)
- Training in science communication: SCOPE (Science Communication Online Programme from Northwestern University). Online class with 8 modules, designed by science-communication experts (2020).
- Data for the People (D4P), *Episode #6: Math, Models, and Social Mixing*. Presentation of a paper on modeling COVID-19 epidemic. Organised by RockEDU (science outreach program at Rockefeller University, NY). Replay available on Youtube. (2020)
- Member of the communication & outreach committee of CUPS - Columbia University Postdoctoral Society (2019 - 2020). Organisation of a workshop "Communicating effectively online" (may 2020) and trivia nights.
- Participation in outreach events (2019) : Girls' Science Day (Columbia University, Spring and Fall 2019), STEM expo (Harlem).
- Association "Women and Science". Interventions in mid and high schools (Bordeaux, 2017).

PUBLICATIONS

Shared first and last authorship are represented with * and [§], respectively.

Postdoctoral period:
